The Town of Nanton warmly welcomes all community members to attend a special **Heritage Open House** showcasing the results of our recent Heritage Building Project.

Over the past months, **13 heritage sites in Nanton** have been carefully surveyed and evaluated for **significance and integrity**. At this Open House we will present:

- Draft Statements of Significance for each site
- Insights into the evaluation process and what makes these places important to our community
- Opportunities for you to share feedback and help shape the future of heritage conservation in Nanton

This is your chance to learn more about Nanton's rich history, ask questions, and contribute to preserving the places that tell or community's story.

We look forward to seeing you there and hearing your thoughts on how we can celebrate and protect Nanton's heritage together.

Hosted by: Town of Nanton & Community Design Strategies Inc.
